Workspace

Workspace will display assigned responsibilities and shortcuts.

The screenshot displays the ACI Workspace interface. At the top is a dark blue navigation bar with the ACI logo and several tabs: DASHBOARD, SEARCH, REVIEW (with a dropdown arrow), REPORTS (with a dropdown arrow), CONFIGURATIONS, and RISK STRATEGY & CONTROL. A dashed arrow points from the REVIEW tab to a white box containing the following options: REVIEW ALERTS & DIMENSION IDS, PENDING ALERTS, and FORWARDS & REMINDERS. Another dashed arrow points from the SEARCH tab to a search widget. A third dashed arrow points from the bottom of the navigation bar to a bottom action bar. A blue text box on the left states: "Options displayed on this page are related to Alert Processing and will be discussed in the Analyst module."

Workspace

Help icon is available on workspace pages:

- Displays a relevant information pop up window

Configuration / System Configuration / Display Management / Auto Text

Auto Text

The Auto Text window lists the auto texts that have been defined and the action(s) and dimension(s) for which each can be used.

Actions

☐	Actions	Auto Text	Dimension	Created Date	Created By	Last Modified ...	Last Modified ...
☐	Block	Cardholder repor...					
☒	All Actions	Customer not ho...					
☐	All Actions	Device ID					

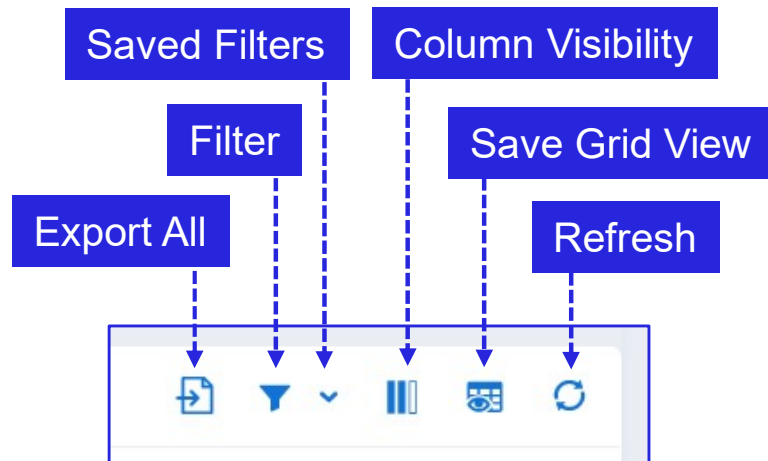

AUTO TEXT

Use this window to add, edit, and delete auto texts:

- To add auto text, click + to open the ADD AUTO TEXT window. If there are no auto texts in the grid, you can click either the + in the top tool bar or the + Add Auto Text link.
- To edit one of the auto texts in the grid, select the corresponding check box and then click the Edit icon in the tool bar at the bottom of the window or in the right-click menu.
- To delete one or more of the auto texts in the grid, select the corresponding check box or check boxes and then click the Delete icon in the tool bar at the bottom of the window or in the right-click menu. To select all auto texts at once, select the top check box.

Note: Use the quick filter Action field or the standard grid filter to quickly find the auto text you want to edit or delete.

Filtering

Save filter view:

Search

Search

- Enables the user to enter search criteria based on the Dimension type selected
- Grid displays available search fields based on Dimensions
- The Fraud Analyst User Guide contains a table of possible data types for search fields and the operators available for each data type.

Search

Card

The screenshot shows the ACI Search interface. At the top, there is a blue header with the ACI logo, a yellow 'SEARCH' button, a language dropdown set to 'English', and a user profile for 'Tom Heuertz Team Admin'. Below the header, the 'Search' section has tabs for 'Card' (highlighted with a dashed blue circle), 'Merchant', 'Customer', 'Terminal', 'Employee', 'User Account ID', and 'Account'. Under the 'Card' tab, the 'Search Type: Card' is selected, and a 'Help' icon is visible. To the right, there are links for 'Open Dimension ID' and 'Recent Dimension IDs', and a yellow 'GET NEXT ALERT' button. The main search area contains a table of search fields, each with a dropdown menu for the field name, a dropdown for the search operator, and a text input for the search value. A dashed blue box highlights the first six rows of this table. Below the table is a '+ ADD SEARCH FIELD' button. At the bottom, there are three buttons: 'SEARCH', 'CLEAR', and 'RESET TO DEFAULT'.

Forwards & Reminders

Forwards

- Open & review
 - Opened as a **Review** and left in manager

The screenshot shows a web application interface for reviewing a cardholder. A red dashed box highlights the top-left area, which includes a navigation menu with icons for home, review, security, forward, clock, list, document, folder, and signal, and a header bar with a back arrow, a card identifier 'U23412*****... Card', and a close button 'x'.

Below the header, the main content area displays cardholder information. At the top, there is a status bar with a 'Review' button, the card number 'U23412*****2003', a status icon, the name 'wj', a timestamp '2020-07-14 03:57:11', and a balance '1,726.99'.

The 'DEMOGRAPHIC DATA' section is active, with tabs for 'General', 'Card Data', and 'Financial Data'. It contains the following information:

Configurations

Configurations

The screenshot displays the ACI Configurations page. The top navigation bar is blue and contains the ACI logo, a search bar, and several menu items: DASHBOARD, SEARCH, REVIEW, REPORTS, CONFIGURATIONS (highlighted in yellow), and RISK STRATEGY & CONTROL. On the right side of the navigation bar, there is a language dropdown set to 'English' and a user profile for 'Tom Heuertz Team Admin'.

The main content area has a light blue background. On the left, there is a sidebar with a 'COLLAPSE NAVIGATION' button and a search bar. Below the search bar, the sidebar lists two main categories with expandable sub-items:

- EXTERNAL MESSAGING MANAGEMENT
 - External Messaging Status
- ACCESS MANAGEMENT
 - Teams & Users

The main content area features the heading 'Configuration' and two large, light blue buttons: 'EXTERNAL MESSAGING MANAGEMENT' and 'ACCESS MANAGEMENT'.

External Messaging Status

The External Messaging screen displays the statuses of requests and notification messages sent to an external system, such as a host, a mobile alerting system, or a dispute management system.

The screenshot shows the 'External Messaging Status' interface. At the top, there's a breadcrumb trail: 'Configuration / External Messaging Management / External Messaging Status'. Below it, the title 'External Messaging Status' is followed by a descriptive paragraph. The main area contains a table with columns: Action, Status, Dimension, Dimension ID, and Authorized. A 'Status' dropdown is set to 'All'. The table lists several 'Block Req' and 'Manual Notification Requested' entries, all with a 'Requested' status. Below the table, there's a pagination bar showing '1 - 50 of 137' and a 'Page Size' of 50. At the bottom, a toolbar indicates '1 selected' and provides options to 'Deselect All', 'Reset' (circular arrow), 'Retry' (circular arrow with a dot), and 'Complete' (checkmark). Annotations with arrows point from the 'Reset', 'Retry', and 'Complete' labels to their respective icons in the toolbar.

The main content area is titled 'Risk Strategy & Control' and contains five white rectangular tiles on a light blue background:

- ACTION CODES & CONFIGURATIONS
- RULE MANAGEMENT
- WORKFLOW & QUEUE MANAGEMENT
- FEATURE MANAGEMENT
- LIST MANAGEMENT

Risk Strategy & Control

Action Codes & Configurations

- Communication Templates
 - Create and manage tags and images to customize letter templates

Rule Management

- Rule Manager
 - View, add, delete, edit, and clone rules
- Dataset Generator
 - Create realistic datasets for testing new and edited rules
- Rule Tester
 - Test rule efficiency against a dataset

Risk Strategy & Control

Workflow & Queue Management

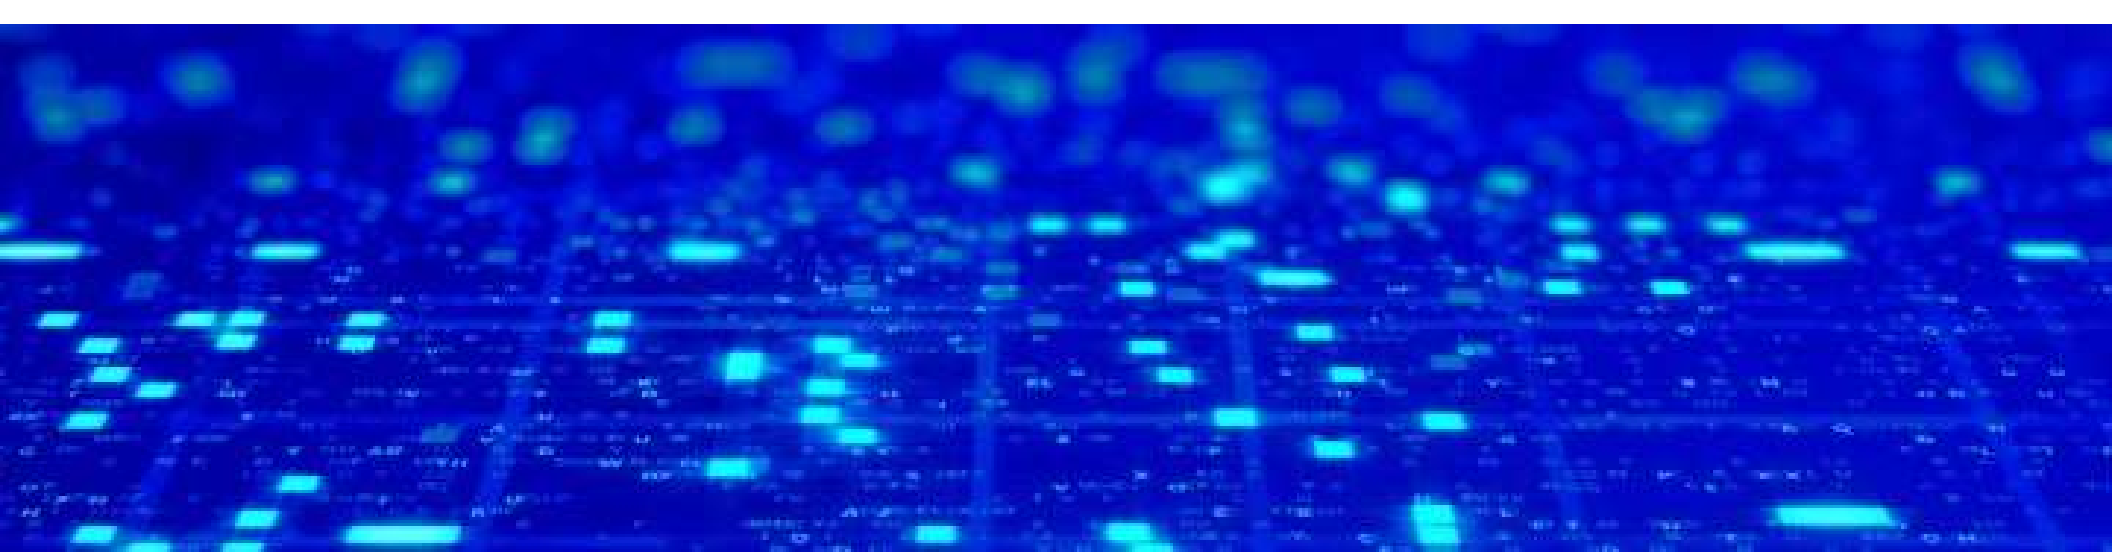

- Queue Manager
 - View, add, delete, and clone queues
- Queue Assignment
 - Distribute and prioritize alerts for analysts

Feature Management

- Computed Variables Manager
 - View, add, delete, edit, and clone computed variables
 - Related to data from inbound transactions, demographic data, or other data

List Management

- Configure values to be referenced in rule criteria
- Restricted by list type
 - Standard lists associated with Root Administrators and Team Administrators
 - System lists associated with System Administrators

Tags

- Add or Edit tag

The 'ADD TAG' form is a light blue dialog box with a close button (X) in the top right corner. It contains the following fields: a 'Tag Name*' text input; a 'Dimension*' dropdown menu with 'Choose Dimension' selected; a 'Table*' dropdown menu with 'Choose Table' selected; a 'Field Name*' dropdown menu with 'Choose Field' selected; a checkbox for 'Contains sensitive data'; and a 'Description' text area. At the bottom are 'SAVE' and 'CLOSE' buttons.

The 'EDIT TAG' form is a light blue dialog box with a close button (X) in the top right corner. It contains the following fields: a 'Tag Name*' text input with 'LASTNAME' entered; a 'Dimension*' dropdown menu with 'Account' selected; a 'Table*' dropdown menu with 'ACCOUNT_MASTER' selected; a 'Field Name*' dropdown menu with 'SM_PRI_LAST_NAM' selected; a checkbox for 'Contains sensitive data'; a 'Field Type*' dropdown menu with 'String' selected and a 'Field Format' text input with 'This is a sample text' entered; a 'Description' text area with 'Account Last Name' entered. At the bottom are 'SAVE' and 'CLOSE' buttons. A dashed blue box highlights the 'Field Type' and 'Field Format' fields, with an arrow pointing from the 'Added data field information based on field selection' text block to it.

Communication Templates

Images

The screenshot displays the 'Images' tab in the Communication Templates interface. The 'Images' tab is highlighted with a dashed blue circle. A blue button labeled 'Add image' is located in the top right corner. Below the button is a table with the following columns: Image, Description, Type, Created by, and Created Date and Time. The table contains one row with the image 'ACI Image.jpg', which is selected (indicated by a checkmark in the first column). Below the table, there is a pagination bar showing '1 - 1' and 'Page Size 50'. At the bottom, there is a toolbar with a checkmark icon, the text '1 selected • Deselect All', and icons for adding, copying, and deleting images. A dashed blue arrow points from the 'Delete image' label to the delete icon in the toolbar.

Communication Templates

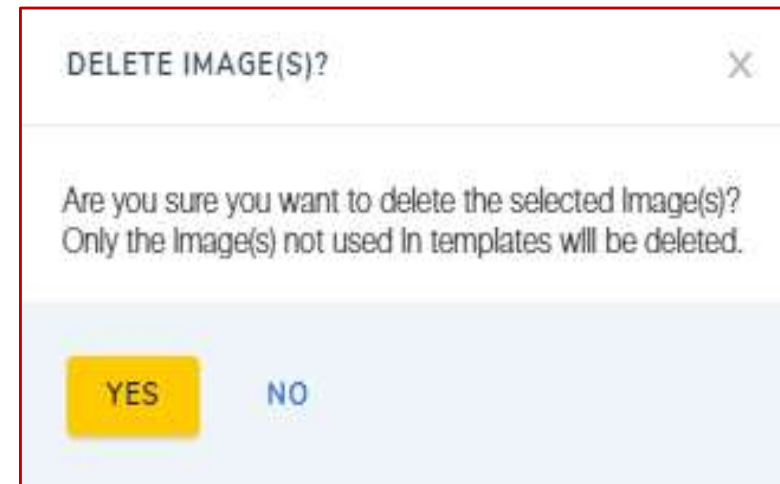

Images

- Add image

The 'ADD IMAGE' dialog box features a title bar with a close button (X). Below the title bar is a 'Help' link with a question mark icon. A blue 'UPLOAD IMAGE' button is positioned above a 'Description' label and a text input field containing the placeholder text 'Enter your description'. At the bottom, there are 'SAVE' and 'CLOSE' buttons.

- Delete image

The 'DELETE IMAGE(S)?' dialog box has a title bar with a close button (X). The main text asks, 'Are you sure you want to delete the selected Image(s)? Only the Image(s) not used in templates will be deleted.' At the bottom, there are two buttons: a yellow 'YES' button and a blue 'NO' button.

Communication Templates

Templates

- Add template

The screenshot shows the 'ADD COMMUNICATION TEMPLATE' form with the following fields and sections:

- Type***: A dropdown menu with 'Letter' selected. An annotation points to this field with the text 'Select type: letter or email'.
- Template Name***: A text input field containing 'Example Letter'.
- Dimension***: A dropdown menu with 'Customer' selected.
- Logo Image**: A dropdown menu with 'ACI Image.jpg' selected.
- Title Content**: A text input field containing 'examples'.
- Description**: A text input field containing 'Example letter for training'.
- Letter Content***: A large text area for the template content.
- Available Portfolios***: A section with a search bar 'Filter Portfolios' and a list of checkboxes: 'Deselect All' (checked), 'ocbc sgp' (checked), and 'Status' (checked). An annotation points to this section with the text 'Available Portfolios displayed after Dimension selection'.
- Available tags**: A section with a search bar 'Filter Tags' and a list of tags: '<ADDRESS1>', '<ADDRESS2>', '<CITY>', '<COUNTRY>', '<customerID>', '<DATE>', '<HOMEPHONE>', '<NAME>', '<POSTALCODE>', '<STATE>', '<UAN_ACTION_LEVEL_KEY>', '<USERNAME>', '<USERPHONE>', and '<WORKPHONE>'. An annotation points to this section with the text 'Available tags displayed after Dimension selection'.

At the bottom of the form are 'SAVE' and 'CLOSE' buttons.

Communication Templates

Templates

- Edit template

The screenshot shows the 'EDIT COMMUNICATION TEMPLATE' form. It includes fields for Type (Email), Template Name (email_example), Dimension (Card), Logo Image (None), Title Content (email_example), and Description. A section for 'Available Portfolios' lists several options, all of which are selected. A dashed blue box highlights the 'Letter Content' field, which contains a sample email template with placeholders like <DATE>, <NAME>, <USERNAME>, <WORKPHONE>, and <CITY>. A blue dashed arrow points from a small icon in the Letter Content field to a separate 'Available tags' panel on the right. This panel lists various tags such as <ADDRESS1>, <ADDRESS2>, <CARD_ACTION_LEVEL_KEY>, <CITY>, <COUNTRY>, <DATE>, <HOMEPHONE>, <NAME>, <POSTALCODE>, <STATE>, <TOMTEST>, <USERNAME>, <USERPHONE>, and <WORKPHONE>.

Rules Overview

Rules Overview

Transaction Data

- Memory variables are created for every incoming transaction field to improve performance and simplify rule creation.
- Memory variables start with **v_** when using an Oracle database

```
If (SELECT SD_PAN FROM ShortWindow  
    WHERE SD_PAN = v_SD_PAN AND  
          SD_DATE = v_SD_DATE AND  
          v_MD_CUST_TRAN_AMT1 > 1000)
```

- Memory variables start with **@** when using a MSSQL database

```
If (SELECT SD_PAN FROM ShortWindow  
    WHERE SD_PAN = @SD_PAN AND  
          SD_DATE = @SD_DATE AND  
          @MD_CUST_TRAN_AMT1 > 1000)
```

- Variables that do not start with a **v_** or a **@** are database record variables from the transaction Shortwindow table.

Rules Overview

Rule Types

- Real-Time Rules
 - Processed during transaction authorization
 - Sends response
 - Short Circuits rule processing when first rule fires
 - No human intervention
 - Real-Time Shortwindow table - 1 day of transaction
- Near Real-Time Rules
 - Processed after transaction authorization
 - Transactions process against “ALL” NRT rules
 - Generates alerts for Analyst reviews
 - Near Real-Time Shortwindow table - 3 days of transaction data

Rules Overview

Rule Types

- Batch (End of Day)
 - Rebuilds profile data tables
 - Processed after transaction authorization
 - Calculations performed using 30 days of transaction data
- Computed Variables
 - Aggregated data usage that returns a single value to a rule
 - Used in rule syntax
 - Can not be deployed as standalone rule
 - Names starts with:
 - **v_** for Oracle syntax
 - **@** for MSSQL syntax

Rules Overview

SQL syntax

- A rule can be as simple or as complex as you desire, using field values, conditions, and/or statements, and time frame considerations.
- Memory variables are created for every incoming transaction field to improve performance and simplify rule creation.
 - Memory variables start with @for MSSQL syntax:

```
If (SELECT SD_PAN FROM ShortWindow
    WHERE SD_PAN = @SD_PAN AND
          SD_DATE = @SD_DATE AND
          @MD_CUST_TRAN_AMT1 > 1000)
```

- Memory variables start with v_ for Oracle syntax:

```
If (SELECT SD_PAN FROM ShortWindow
    WHERE SD_PAN = v_SD_PAN AND
          SD_DATE = v_SD_DATE AND
          v_MD_CUST_TRAN_AMT1 > 1000)
```

Rules Overview

Velocity Rules concepts

- Velocity type rules allowed to access the Shortwindow tables
 - Limits number of transactions searched

```
(SELECT COUNT) FROM ShortWindow
    WHERE  SD_PAN = v_SD_PAN
    AND    DateDiff(hh, DD_DATE, v_DD_DATE) >=0
    AND    DateDiff(hh, DD_DATE, v_DD_DATE) < 24
    AND    (SD_EMV_USER_FILLER LIKE '15%'
    AND    (SD_PT_SRV_ENTRY_MDE LIKE '02%'
    OR     SD_PT_SRV_ENTRY_MDE LIKE '01%'))))>=5
```

SD_PAN – value from Detail Table record

v_ SD_PAN – value from incoming transaction data (Oracle)

@ SD_PAN – value from incoming transaction data (MSSQL)

Rules Overview

Computed Variables

- Computed Variable name is referenced in rule syntax.

```
Define @RISKY_MCC
    Type: VARCHAR
    Size: 1

SQL: IF (@SD_RETL_SIC_CDE IN
    ('7297', '5961', '5542', '5833', '5833', '7933', '5736')
    BEGIN
        SET @RISKY_MCC = 'Y'
    END
ELSE
    BEGIN
        SET @RISKY_MCC = 'N'
    END
```

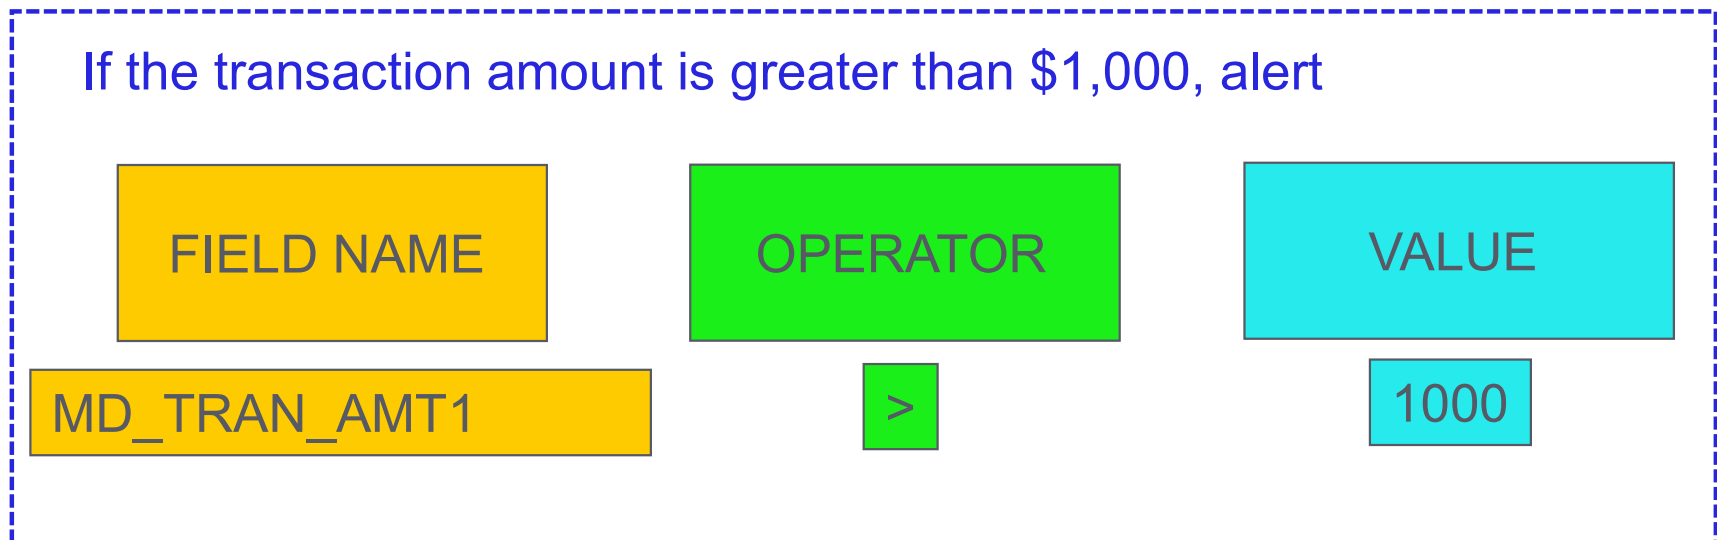

@RISKY_MCC = "Y" (MSSQL)

V_RISKY_MCC = "Y" (Oracle)

Rules Overview

Rule Elements

1. A **FIELD NAME** that represents transaction information
2. An **OPERATOR** (=, >, <, <=, >=, <>) indicating the comparison parameters
3. A **VALUE** for the field name

Rules Overview

Detail Data Table Field Names

- Field Indicator (**S**, **N**, **M**, or **D**)
- Table Indicator (**M** or **D**)
- Descriptor (Name)

Field Indicator indicates the data type of the field

- **String** values
- **Numeric** values
- **Monetary** values
- **Date and Time** values

Table Indicator indicates the database table

- **Master Table**
- **Detail Table**

Rules Overview

Field Names

- Start with a **Field Indicator** and a **Table Indicator**

String value

SM_USER_CITY = 'San Diego'

Numeric value

NM_FRAUDTYPE = 9

Monetary value

MM_ACCT_HOLD_BAL = 100

Date value

DD_DATE > 'Mar 5, 2022 10:45AM'

Master Table

S**M**_ACCT_STAT

Account status

Detail Table

M**D**_TRAN_AMT1

Transaction amount

Rules Overview

Field Names

- **Descriptors** are a symbolic names used to identify the field contents

Rule Management

Risk Strategy & Control >

Rule Management

The screenshot displays the ACI Rule Management interface. The top navigation bar is blue with the ACI logo on the left and a series of menu items: DASHBOARD, SEARCH, REVIEW, REPORTS, CONFIGURATIONS, and RISK STRATEGY & CONTROL (highlighted in yellow). On the right of the bar are language and user selection options: English and Tom Heuertz Team Admin.

The main content area has a light blue background. On the left is a sidebar with a search bar and a 'COLLAPSE NAVIGATION' button. The sidebar menu includes: ACTION CODES & CONFIGURATIONS, RULE MANAGEMENT (expanded), WORKFLOW & QUEUE MANAGEMENT, FEATURE MANAGEMENT, and LIST MANAGEMENT. Under RULE MANAGEMENT, there are three sub-items: Rule Manager, Dataset Generator, and Rule Tester.

The main content area on the right shows the breadcrumb 'Risk Strategy & Control / Rule Management' and the title 'Rule Management'. Below the title are three white rectangular buttons: RULE MANAGER, DATASET GENERATOR, and RULE TESTER.

Rule Manager

Risk Strategy & Control > Rule Management

Rule Manager

[Risk Strategy & Control](#) / [Rule Management](#) / [Rule Manager](#)

Rule Manager

From the Rule Manager screen, you can view, add, delete, edit, and clone rules. You can assign rules to portfolios and deploy them into production, or deactivate a rule so it is no longer in production.

 - Alert Behavior

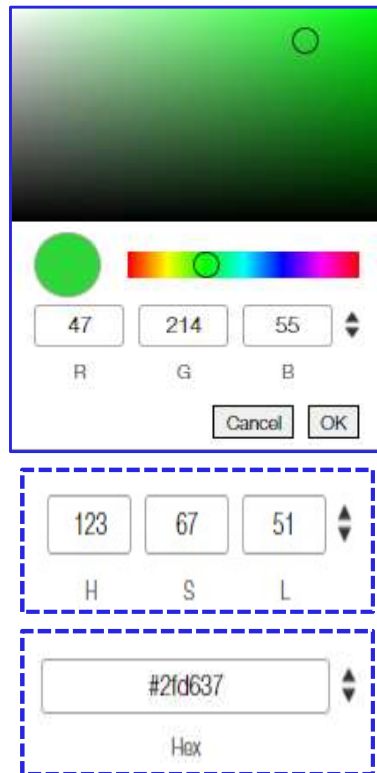

The screenshot shows a web interface for the 'Rule Manager'. At the top, there is a section titled 'Create matching queue'. Below this, there is a dropdown menu labeled 'Alert Behaviour'. The dropdown is open, showing three options: 'Discard' (highlighted in blue), 'Archive', and 'Keep in Queue'. Below the dropdown, there is a text input field. At the bottom of the interface, there is a toggle switch for 'Email notification for Pending Alerts' and a radio button for 'Assign group queue'. The 'Discard' option in the dropdown is highlighted with a blue background.

- **Discard**
 - Analyst works alert, closes alert and alert deleted
- **Archive**
 - Analyst works alert, closes alert and alert deleted
 - Alert Copied to Alerts Tracking table for internal audit or further investigation
- **Keep in Queue**
 - Analyst works alert, choses to close alert or leave alert open for another analyst to work via Get Next Alert
 - Behavior is different from Reminder or Forward
 - Alert Copied to Alerts Tracking table for internal audit or further investigation

- Deployed – number of portfolios deployed
- Pending – number of portfolios to be modified

Assigned = Deployed “plus” Pending empty -> **completed state**

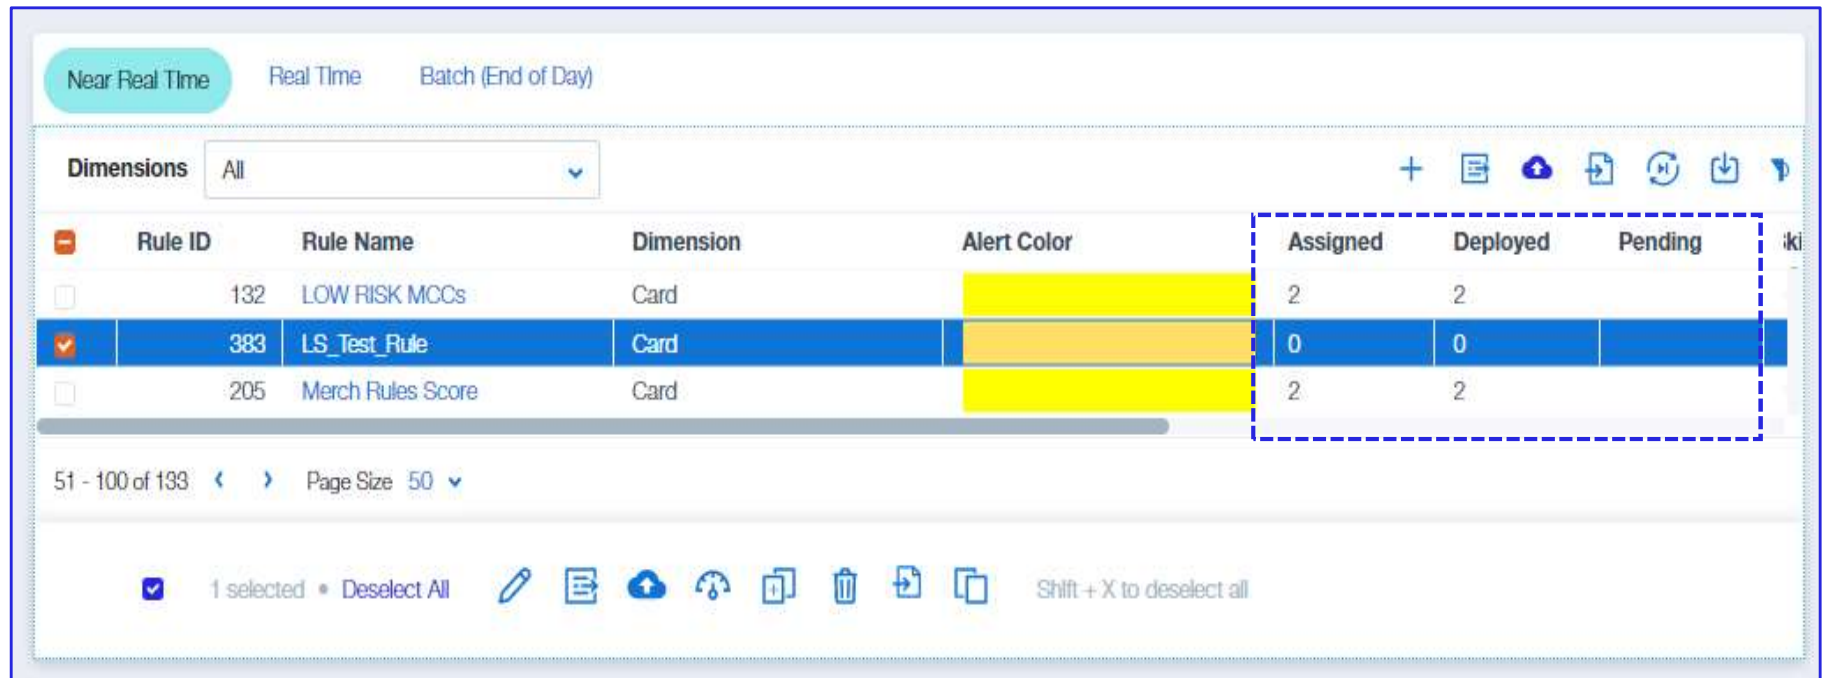

Pending > zero (**+1**)

	Rule ID	Rule Name	Dimension	Alert Color	Assigned	Deployed	Pending	
	132	LOW RISK MCCs	Card		2	2		
	383	LS_Test_Rule	Card		0	0		
	205	Merch Rules Score	Card		2	2		

Rule Manager

Rules to be Deployed

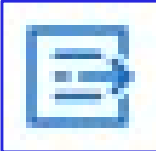

- Select rule to assign portfolios

The screenshot shows the Rule Manager interface with the following components:

- Time Periods:** Near Real Time (selected), Real Time, Batch (End of Day)
- Dimensions:** All (dropdown)
- Table:** A table with columns: Rule ID, Rule Name, Dimension, Alert Color, Assigned, Deployed, Pending. The row for 'LS_Test_Rule' (ID 383) is selected.
- Page Info:** 51 - 100 of 133, Page Size 50
- Actions:** 1 selected, Deselect All, and various icons for editing, deleting, and exporting.

Rule ID	Rule Name	Dimension	Alert Color	Assigned	Deployed	Pending
132	LOW RISK MCCs	Card	Yellow	2	2	
383	LS_Test_Rule	Card	Orange	0	0	
205	Merch Rules Score	Card	Yellow	2	2	

- Click  to assign portfolios

Rule Manager

Rules to be Deployed

- Select portfolios to assign rule to

The screenshot displays the Rule Manager interface, divided into two main panels: "Available Rules" and "Assigned to Portfolios".

Available Rules:

- Search bar: "Filter Rules" with a magnifying glass icon.
- Selection controls: ☐ Select All, a dropdown arrow, and ☒ Card.
- Rule list: ☒ LS_Test_Rule (highlighted).
- Footer: Expand All | Collapse All | Reveal Selection.

Assigned to Portfolios:

- Search bar: "Filter" with a magnifying glass icon.
- Selection controls: ☒ Select All, a dropdown arrow, and ☒ Card.
- Portfolio list: ☒ DebashisTestPortfolio-Card, ☒ NYM_BANK2, ☒ Nymcard Credit Card, and ☐ Operate Standard Profile Jobs (indicated by a right-pointing arrow).
- Footer: Expand All | Collapse All | Reveal Changes.

A yellow button with a right-pointing arrow is positioned between the two panels, indicating the action to move the selected rule to the assigned portfolios.

- Click

Dual Control

- Select rules to assign portfolios

The screenshot shows the Rule Manager interface. At the top, there are tabs for 'Near Real Time' (selected), 'Real Time', and 'Batch (End of Day)'. Below the tabs is a 'Dimensions' dropdown menu set to 'All'. To the right of the dropdown is a toolbar with icons for adding, editing, deleting, and other actions. The main table lists rules with columns: Rule ID, Rule Name, Dimension, Alert Color, Assigned, Deployed, Pending, Alert Behavior, and Skip. The table contains four rows of rules. The first row is 'LOW RISK MCCs' with Rule ID 132. The second row is 'LS_Test_Rule' with Rule ID 383. The third row is 'LS_test_Rule_2' with Rule ID 386. The fourth row is 'Merch Rules Score' with Rule ID 205. The 'Assigned' and 'Deployed' columns show counts for each rule. The 'Alert Behavior' column shows 'Contextual Mark History' for all rules. The 'Skip' column shows '0' for all rules. Below the table is a pagination bar showing '51 - 100 of 134' and 'Page Size 50'. At the bottom, there is a status bar showing '2 selected' and 'Deselect All' with a toolbar for actions like edit, delete, and copy.

Risk Strategy & Control >

Workflow & Queue Management

The screenshot displays the ACI Risk Strategy & Control web application. The top navigation bar is blue with the ACI logo on the left and a series of menu items: DASHBOARD, SEARCH, REVIEW, REPORTS, CONFIGURATIONS, and RISK STRATEGY & CONTROL (highlighted in yellow). On the right of the top bar, there is a language dropdown set to 'English' and a user profile for 'Tom Heuertz Team Admin'. Below the top bar, a left-hand navigation pane is visible, featuring a search box and a 'COLLAPSE NAVIGATION' button. The navigation menu includes: ACTION CODES & CONFIGURATIONS, RULE MANAGEMENT, WORKFLOW & QUEUE MANAGEMENT (which is expanded to show Queue Manager and Queue Assignment), FEATURE MANAGEMENT, and LIST MANAGEMENT. The main content area has a breadcrumb trail 'Risk Strategy & Control / Workflow & Queue Management' and a title 'Workflow & Queue Management'. Below the title, there are two white rectangular buttons: 'QUEUE MANAGER' and 'QUEUE ASSIGNMENT'.

Matching Queues

- Managed on Rule Manager
- No Add, Edit, Clone, or Delete functionality
- No Assign or Deploy functionality

The screenshot displays the 'Matching' tab in the Queue Manager. At the top, there are tabs for 'Smart', 'Matching' (selected), 'Group', 'Batch (End of Day)', 'Forward', and 'System'. Below these is a 'Dimensions' dropdown menu set to 'All'. To the right of the dropdown are several icons: a document, a funnel, a list, a refresh, a calendar, and a help icon. The main table lists queue information with columns: Queue ID, Queue Name, Dimension, Alert Color, Assigned, Deployed, Pending, Created By, and Last Modified. The row for 'RAK4 POS' (Queue ID 380) is selected, indicated by a checkmark in the first column and a blue background. Below the table, there is a pagination bar showing '1 - 50 of 54' and a 'Page Size' dropdown set to '50'. At the bottom, a status bar shows '1 selected' and a 'Deselect All' button, along with a keyboard shortcut 'Shift + X to deselect all'.

A color selection interface. At the top is a large color gradient bar. Below it is a circular color picker showing a green color. To the right of the picker is a horizontal rainbow color bar with a small green circle. Below these are three input fields for RGB values: R (47), G (214), and B (55). Below these are three input fields for HSL values: H (123), S (67), and L (51). At the bottom is a text input field for a hex color code, containing "#2fd637". There are "Cancel" and "OK" buttons at the bottom right.

Queue Assignment

This window enables team administrators to distribute and prioritize alerts for analysts. By assigning queues to analysts, team administrators can control the types of alerts that are sent to each analyst. If an alert matches more than one queue, ...

The screenshot displays the 'Queue Assignment' interface. At the top, a breadcrumb trail reads 'Risk Strategy & Control / Workflow & Queue Management / Queue Assignment'. Below this, the title 'Queue Assignment' is followed by a descriptive paragraph. The main interface is divided into two panels: 'Available' on the left and 'Assigned' on the right, separated by a vertical 'WORKSPACE' bar with a plus icon. The 'Available' panel features a 'Team' dropdown set to 'Learning Services', a 'Filter' search bar, and a list of queue categories: 'Select All', 'Merchant' (expanded), and 'Batch Jobs' (expanded). Under 'Batch Jobs', there are four options: 'AllTogether' (unchecked), 'CVD Flag' (checked), 'Debit Card All CNP \$100+', and 'RUPAY' (unchecked). At the bottom of the 'Available' panel, it shows '1 selected' and buttons for 'Deselect All', 'Expand All', 'Collapse All', and 'Reveal Selection'. A 'SAVE' button is at the very bottom. The 'Assigned' panel also has a 'Filter' search bar and a list of analysts: 'Select All', 'John Smith' (unchecked), 'Tom Heuertz - Manager' (unchecked), 'Tom Heuertz - Supervisor' (checked), and 'Tom Heuertz Team Admin' (unchecked). At the bottom of the 'Assigned' panel, it shows '1 selected' and buttons for 'Deselect All', 'Expand All', 'Collapse All', and 'Reveal Changes'. Below the 'Assigned' panel, there is a 'View Assigned Queues By' dropdown set to 'Priority'. Two blue callout boxes with dashed arrows point to the 'Reveal Changes' button and the 'Priority' dropdown, labeled 'Copy from' and 'Copy to' respectively. Another blue callout box with a dashed arrow points to the 'Team' dropdown, labeled 'View assigned team and secondary teams'.

Computed Variables Manager

Delete

- Only available when **In Use = N** and **Dependency Count = 0**

The screenshot shows the 'Computed Variables Manager' interface. At the top, there are tabs for 'Near Real-Time' (selected), 'Real-Time', and 'Batch (End of Day)'. Below the tabs is a 'Dimensions' dropdown menu set to 'All'. The main table has columns: 'Computed Variable ID', 'Computed Variable Name', 'Dimension', 'Pending Changes', 'In Use', and 'Dependency Count'. The first row (ID 388, Name @LS_Example_CV) has 'In Use' = Y and 'Dependency Count' = 1. The second row (ID 323, Name @NYMCARD_HIGH_RISK_MCC) has 'In Use' = N and 'Dependency Count' = 0. A red dashed box highlights the 'In Use' and 'Dependency Count' columns for the second row. A red dashed arrow points from the delete icon (trash can) in the bottom toolbar to the 'In Use' and 'Dependency Count' columns of the second row. The bottom toolbar shows '1 selected', 'Deselect All', and icons for edit, copy, delete, and paste. The text 'Shift + X to deselect all' is also present.

Computed Variable ID	Computed Variable Name	Dimension	Pending Changes	In Use	Dependency Count
388	@LS_Example_CV	Card	N	Y	1
323	@NYMCARD_HIGH_RISK_MCC	Card	N	N	0
